VERSION A — THE OUTCOME HOOK

Real estate agencies lose half their leads before anyone speaks to them. I built the AI that stops that. Founder @ Wakeeli. Turning cold WhatsApp leads into booked tours.

VERSION B — THE STAT PUNCH

Forbes says 35-50% of sales go to the first responder. Most agencies respond in hours. I built an AI that responds in seconds. Founder @ Wakeeli — AI lead conversion for real estate.

VERSION C — THE PROBLEM-FIRST IDENTITY

Your agency isn't losing deals on price. It's losing them to silence. I built the fix. Founder @ Wakeeli | AI-powered lead conversion for real estate agencies in GCC and beyond.

About Section

2,600 characters max

A real estate agency owner once showed me his WhatsApp inbox.

47 inbound leads in one month. 31 never got a response.

Not because his agents were lazy. Not because the leads were bad. Because a buyer messaged at 11pm on a Friday, no one was there, and by Saturday morning they'd already booked a viewing somewhere else.

Forbes quantified it: 35 to 50 percent of sales go to the first responder. Response within 5 minutes lifts conversion 21x. Most agencies respond in 4 to 6 hours. Some never respond at all.

I sat with WhatsApp transcripts from 7 different agencies. Across the board, the same pattern. Leads arrive. Silence follows. Deals die.

They don't have a lead problem. They have a response problem.

So I built Wakeeli.

Wakeeli connects to an agency's WhatsApp and handles every inbound lead automatically. It responds instantly — 24/7, no exceptions. It qualifies the buyer. It matches them to the right listings. It books property tours. Agents step in when the lead is warm and ready to close.

Not a chatbot. Not a FAQ bot. A full AI conversion system that conducts the conversation, understands what the buyer wants, and moves them through the funnel without a human touching it.

I built it first in Lebanon, where the problem was bleeding. Now we're deploying across GCC and beyond — because the problem is the same whether you're in Dubai, Riyadh, or Doha. Buyers don't wait. The first agency to respond wins the deal.

If you run a real estate agency and you want to see what your pipeline looks like when zero leads go cold, DM me. I'll show you exactly what Wakeeli does on a call.

No pitch deck. No sales rep. Just the numbers.

Connection Request Note

300 characters max

Saw you're in real estate in [city]. I've been deep in the WhatsApp conversion problem agencies face — studied transcripts from 7 agencies, built a fix. Think we'd have a good conversation. No pitch, just a genuine connection.

First DM After Connection Accepted

Hey [Name] — thanks for connecting.

Quick question, not a pitch: when a lead messages your agency on WhatsApp after hours, what happens to it?

I've been building around that exact problem and I'm curious how you're handling it right now.

Five Post Hooks for Week One

1

CURIOSITY GAP

The reason your agency is losing deals has nothing to do with your listings, your pricing, or your agents.

2

STAT HOOK

31 out of 47 leads in one month. Disappeared. Before a single agent said a word.

3

EXPECTATION-BREAKING

Your biggest competitor isn't the agency across the street. It's the 5-minute window you keep losing every single day.

4

HOW I

How I read through WhatsApp transcripts from 7 real estate agencies and found the same fatal mistake in every one.

5

ACTIONABLE PROMISE

How to make sure every inbound WhatsApp lead gets a response in under 60 seconds — without adding a single person to your team.

NOTES

Copywriting Notes

For Fox's reference

THE GREASED CHUTE RULE (SUBY)

Every line exists to pull the reader into the next. Never let the pace drop. Cut every sentence that doesn't move them forward.

THE LARGER MARKET FORMULA

Most agencies don't know they have a response problem. They think they have a lead problem. Lead with that reframe. You're not selling software. You're diagnosing a problem they already feel but can't name.

THE GODFATHER OFFER PRINCIPLE

The CTA is never "buy." It's "let me show you the numbers on a 15-minute call." Zero risk. Maximum curiosity. Always frame the next step as value, not a sale.

NEWIF IN THE ABOUT SECTION

- **Need:** agencies bleeding leads to silence

SPECIFICITY IS PROOF

"31 out of 47 leads" is not a stat. It's a crime scene. Specificity creates credibility that round numbers never will. Always use the real numbers.
